

HEAVY DUTY WITH EXTRA ARMOR.

Built for full-size heavier vehicles, the **Arctic HDXL-P** offers all the same great features as the Arctic HD-P in a wider, heavier package. In addition to the slick polyethylene skin, open pins, and a hardened, high-carbon cutting edge, the **Arctic HDXL-P** is reinforced with a horizontal steel support. It's the workhorse of our fleet, with extra armor.

7 LASER-CUT, STEEL REINFORCING RIBS

back our frictionless poly moldboard with the strength of steel

HOT-DIPPED GALVANIZED STEEL FRAME

provides added resistance to abrasion, water and rust, making our plows virtually maintenance free

3/8" POLYETHYLENE MOLDBOARD
throws snow further and faster resulting in less resistance and vehicle wear, and improved fuel economy

HORIZONTAL BLADE REINFORCEMENT

provides additional strength across the wider blade

6" DEFLECTOR

keeps snow down on the blade and away from the driver's windshield

DOUBLE LIFT CHAINS

for extra lift strength and safety

QUIK*LINK® III ATTACHMENT

4 TENSION SPRINGS

keep the blade upright and offer ample room for addition of a shock absorber kit, if desired

THREE 3/4" OPEN PINS

secure the blade to the quadrant and A-frame assembly, eliminating pin seizure, and easing pin replacement

DISH-SHAPED SKID SHOES

improve surface clearance while plowing forward

1/2" X 6" HARDENED HIGH CARBON STEEL CUTTING EDGE
with top hole bolt pattern

QUIK*LINK® IV ATTACHMENT

WHY CHOOSE POLY?

Arctic's high density polyethylene moldboards combine the durable, slick characteristics of poly with advanced blade design mechanics to throw more of even the stickiest, wettest snow further and faster. This not only results in more snow being moved more quickly, it also minimizes forward resistance – meaning decreased wear on power trains and increased fuel economy. **Contact your Arctic Dealer to learn more about the high-tech, low-maintenance benefits of poly.**

M3493-05 SERIES HYDRAULIC POWER UNIT

The M3493-05 electric hydraulic system, with a 2" x 6" lift cylinder offers proven performance and reliability. Compatible with the Hi Boy mounting kit, this power unit has one of the highest outputs in the industry. Standard operating pressures are 1350 psi and the crossover relief valves are set at 3000 psi. This pump is compatible with all of our control systems.

QUIK*LINK® III & IV MOUNTING KIT

Featuring an adjustable jack stand, our mounting systems allow you to remove the entire plow assembly as a single unit with the lift frame intact. Arctic's QUIK*LINK® III & IV system makes the already-simple mounting system even easier to use by replacing the two mounting pins with a simple single, spring-loaded locking bar.

ARCTIC HDXL-P SPECIFICATIONS

Plow Name	HDXL102-P	HDXL108-P
Length	102"	108"
Moldboard Height	29"	29"
Material	3/8" Poly	3/8" Poly
Plowing Width (Full Angle)	88"	94"
Complete Weight	*776 lbs	*788 lbs
Mounting Type	Detachable	Detachable
Removable Lights and Power Unit	Yes	Yes

STANDARD CONTROLLER

HAND HELD

This ergonomic controller has 4 rubber faced buttons, and a float light in the middle. An automatic shut-off eliminates accidental use or drained batteries.

MPX WIRING

MODULE CONTROL SYSTEM

Easier installation, Universal Wiring Harness and Control Module to allow the use of different Arctic Snowplows simply by changing controllers. (note (*) Vehicles and plows must be MPX system compatible). Required for most newer vehicles.

OPTIONAL ACCESSORIES

SINGLE HALOGEN BULB
(H9003)

DUAL HALOGEN BULB
(H7, H1)

CURB GUARD

EXTEND. BL. GUIDES

LICENSE PLATE BRACKET

POLY CUTTING EDGE

SHOCK ABSORBER

PROWING EXTENSIONS
