

**OKAY WINTER.
IT'S JUST YOU AND ME.**

Built for medium- to full-size lighter trucks, the **Arctic SD-P** fits on all QUIK*LINK® mounts, and offers all the robust, dependable features Arctic is known for. Whether you are dusting off the street for a game of road hockey or are liberating your neighbors after a storm, the **Arctic SD-P** lets you get down to business. Winter doesn't wait for anyone – why should you?

QUIK*LINK® IV ATTACHMENT

5 LASER-CUT, STEEL REINFORCING RIBS
back our frictionless poly moldboard with the strength of steel

FULL-SIZE TENSION SPRINGS
support the plow and are attached to a 1/4"-thick boxed quadrant that fixes to a double leg 2" X 2" boxed tubing A-frame with a 1" easy-to-remove greasable and bushed king bolt

1/4" POLYETHYLENE MOLDBOARD
throws snow further and faster resulting in less resistance and vehicle wear, and improved fuel economy

6" DEFLECTOR
keeps snow down on the blade and away from the driver's windshield

3/8" X 4" NON-REVERSIBLE STEEL CUTTING EDGE
cuts and lifts hard packed snow and ice

DISH-SHAPED SKID SHOES
improve surface clearance while plowing forward

HOT-DIPPED GALVANIZED STEEL FRAME
provides added resistance to abrasion, water and rust, making our plows virtually maintenance free

QUIK*LINK® III ATTACHMENT

MEET THE REST OF THE ARCTIC PRODUCT LINE

WHY CHOOSE POLY?

Arctic's high density polyethylene moldboards combine the durable, slick characteristics of poly with advanced blade design mechanics to throw more of even the stickiest, wettest snow further and faster. This not only results in more snow being moved more quickly, it also minimizes forward resistance – meaning decreased wear on power trains and increased fuel economy. **Contact your Arctic Dealer to learn more about the high-tech, low-maintenance benefits of poly.**

M3493 SERIES HYDRAULIC POWER UNIT

The M3493 electric hydraulic system, with a 1.5" x 6" lift cylinder offers proven performance and reliability in a compact size. This unit was built for the low mount lift frame and has an operating pressure of 2000 psi and the crossover relief valves are set at 3000 psi. This pump is compatible with all our control systems.

QUIK*LINK® III & IV MOUNTING KIT

Featuring an adjustable jack stand, our mounting systems allow you to remove the entire plow assembly as a single unit with the lift frame intact. Arctic's QUIK*LINK® III & IV system makes the already-simple mounting system even easier to use by replacing the two mounting pins with a simple single, spring-loaded locking bar.

ARCTIC SD-P SPECIFICATIONS

Plow Name	SD84-P	SD90-P
Length	84"	90"
Moldboard Height	22"	22"
Material	1/4" Poly	1/4" Poly
Plowing Width (Full Angle)	75"	80"
Complete Weight	*514 lbs	*538 lbs
Mounting Type	Detachable	Detachable
Removable Lights and Power Unit	Yes	Yes

STANDARD CONTROLLER

HAND HELD

This ergonomic controller has 4 rubber faced buttons, and a float light in the middle. An automatic shut-off eliminates accidental use or drained batteries.

MPX WIRING

MODULE CONTROL SYSTEM

Easier installation, Universal Wiring Harness and Control Module to allow the use of different Arctic Snowplows simply by changing controllers. (note (*) Vehicles and plows must be MPX system compatible). Required for most newer vehicles.

OPTIONAL ACCESSORIES

SINGLE HALOGEN BULB
(H9003)

DUAL HALOGEN BULB
(H7, H1)

CURB GUARD

LICENSE PLATE BRACKET

POLY CUTTING EDGE

QUIK*LINK® is a registered trade-mark of Arctic Equipment Manufacturing Corporation.
